Realtime or Syncro Connect?

You already run Realtime. Syncro Connect is our web-based system, built by the same Leeds team, with a full staff app and a family of Connect modules. Here is what changes if you move, what stays the same, and when Realtime is still the better fit.

	Realtime what you have today	**Syncro Connect** web-based, nothing to install
How it runs	Installed software, on your own server or our UK hosting	In a web browser and the Syncro Connect app. Nothing to install or maintain, with data held in the UK
Clocking in	Terminals, the web portal, and a phone app for clocking in with GPS	Terminals, any web browser, or the app with GPS at each clocking. The app works offline and syncs later
Staff self-service	The Realtime employee web portal	The Syncro Connect app: holiday requests and balances, timesheets, sickness reporting and travel. Syncro Kiosk for staff without a smartphone
Managers	Realtime software and management portal	Approve holiday from their phone, with push notifications for requests and late or missed clockings
Holiday and absence	Included	Leave Connect, included: Bradford Factor, return to work forms, fit notes uploaded in the app, unauthorised absence alerts
HR records	Realtime HR module	HR Connect, £1 per employee per month
Fire roll call	Computime Muster App	Fire Connect, £395 a year. Several marshals on one live list
Visitors and doors	Available	Visitor Connect, £495 a year, and Access Connect, £395 a year plus hardware
Payroll	Exports for Sage, Xero, QuickBooks, BrightPay, IRIS, ADP and Pegasus, plus **direct Sage Payroll integration** (£395 a year)	Exports for Sage, Xero, QuickBooks, BrightPay, IRIS, ADP and Pegasus. An export file, not a direct link
Job costing	**Yes**	Not available
Rotas	**Yes**	Coming soon
Pricing	Quoted per installation	From £2 per employee per month, £3 with the app. No setup fees

All prices exclude VAT. Per employee prices are per month, billed annually; monthly billing is available.

Which one fits you? we will tell you honestly

Move to Syncro Connect if

- ✓ You want staff using their own phones for clocking, holidays and timesheets
- ✓ You would rather not run software or a server yourself
- ✓ Managers want to approve requests on the move
- ✓ You want fire roll call, visitors and doors from the same staff records
- ✓ You want a clear price per employee, with no setup fees

Stay on Realtime if

- ✓ You rely on job costing
- ✓ You need direct Sage Payroll integration rather than an export file
- ✓ You build rotas in the system today
- ✓ You want the software on your own server

Moving across we configure it, you check the figures

STEP 1
A short call
We look at your rules and your terminals. Most existing Realtime terminals should work with Syncro Connect, and we confirm yours on the call.

STEP 2
We configure it
We set up and configure Syncro Connect for you, with access from day one. Staff can be imported from a spreadsheet.

STEP 3
Run both
Run Syncro Connect alongside Realtime for a pay period, so you can compare the figures before you switch.

STEP 4
Switch over
Staff download the app, managers start approving on their phones, and support stays with the same Leeds team.

What Syncro Connect costs

£2
per employee per month for the software, with Leave Connect included

£3
per employee per month in total with the Syncro Connect app

£0
fees to set up and configure the system
